

RESTAURANT GENUSS.APOTHEKE RAIMAR PILZ

OUR PHILOSOPHY

Genuss-Apotheke translates as 'Pleasure Pharmacy', and we are totally committed to ensuring that you have a great time with your family and friends in our restaurant. Relax and enjoy each other's company while we offer you an eating experience which is simultaneously down-to-earth and original, combining the very finest ingredients in harmonious and sometimes unexpected ways.

TIME

The march of time is inexorable. We recall our lives as a succession of unique moments, and we should strive to live every single one of those moments to the full. We hope that you will remember each visit to the Genuss-Apotheke as one of those unforgettable milestones.

RESPECT

Respect guides everything we do. Respect for the natural processes that create the ingredients we use, and respect for the seasons. Respect for the local farmers, artisans, merchants and partners who supply us. And above all respect for you, who have chosen to eat at our restaurant.

ONE MENU instead of à la carte

When everyone enjoys the same menu, the same succession of dishes, then there is a heightened sense of community, a shared experience which encourages interaction and togetherness. As one example, take the sourdough bread which precedes all our meals; it is created from 100% rye flour, rock salt and three-stage sourdough, warm and with a wonderful aroma. A physical manifestation of time. Tradition and modernity, local but also cosmopolitan. A beginning of the meal, and also of conversation.

VEGETARIANS AND ALLERGIES

The use of animal products is a cornerstone of our kitchen. They feature in many of our dishes, and contribute to the diversity of our flavors. However, we are happy to prepare tasty vegetarian alternatives by prior arrangement. But we cannot offer guests an equivalent taste experience in vegan form, and we therefore do not offer vegan menus. We are happy to cater for mild allergies and intolerances if informed in advance, but please understand that we cannot take the responsibility of serving you if such reactions could be severe or life-threatening.

INSERT FOR CURRENT RESTAURANT VISIT

We at the Genuss-Apotheke – Raimer and Annett, Julie, Antje and Michael – are bursting with energy after seven months of lockdown. We are looking to the future with excitement and confidence. We warmly invite you to enjoy dining with us while respecting certain tried and tested hygiene precautions.

Our reunion will be a little different now – no more handshakes, and our smiles obscured by face-masks, but we will do everything in our power to ensure that your visit to our restaurant will be a wonderful and memorable experience.

We are so eager to welcome you!

Below are listed the official measures we must all take during these difficult times:

Please enter the restaurant wearing a mask that covers your mouth and nose. You can remove this once you are seated at your table, but you must put it on again when you leave the restaurant and if you need to visit our toilet.

We provide hand disinfectant from NATURGUT, St. Blasien, at the restaurant entrance and on each table. To ensure traceability of your visit, we use the Luca app which enables you to check in personally on your smartphone. If you prefer, you can have your contact details recorded in a written list.

Tables are assigned by us based on the minimum required spacing. You will be seated together with members of your group, but the spacing between tables has been increased for safety reasons.

Please refrain from shaking hands or hugging us or other guests during your visit.

Our toilets are in the basement, and accessed by a narrow stairway. Only one guest at a time may visit the toilet or use the stairs. If you have to wait your turn, you are very welcome to spend this time in our wine cellar.

In the current situation we are not using our usual menus. Instead, we will print out your personal copy and you are welcome to take this home with you as a souvenir. We hope it will motivate you to visit us again!

Our tables will appear rather bare when you arrive. Don't worry! This is for safety reasons and all of the necessary cutlery, utensils and plates will appear as needed!

We disinfect and clean all tables and contact surfaces such as doors, doorknobs and chairs at regular intervals throughout the day. This is for your protection, and we trust you'll accept any minor inconvenience that this causes.

Finally

–“We can complain because rose bushes have thorns,
or rejoice because thorns have roses.” (Alphonse Carr)

or with our words...

– “Things are what they are, but they can become what we make of them.”
